CALIFORNIA AND WESTERN MEDICINE

VOLUME XXVII

JULY TO DECEMBER 1927

Index—California and Western Medicine, Volume XXVII, July to December, 1927

CALIFORNIA AND WESTERN MEDICINE has grown to a size where it is no longer possible to bind the twelve issues of one year in the same volume. Therefore, two volumes a year, one from January to June, inclusive, and the other from July to December, inclusive, will be published, and each volume will be supplied with an index.

An ever enlarging circle of physicians who read systematically are finding the Cumulative Index published quarterly by the A. M. A., and sold for a nominal subscription, of incalculable value. Everything published in CALIFORNIA AND WESTERN MEDICINE, as well as other worthwhile medical magazines, is completely indexed in the "Cumulative" in a most complete author and subject index. To obtain a copy of this index, write to American Medical Association, 535 North Dearborn Street, Chicago, Illinois.
